SCM World named in Sunday Times Export Fast Track 2016 for second year running

35% growth recognised as SCM World listed as one of the fastest-growing international sales SMEs by Fast Track

LONDON, 16 May 2016 – [SCM World](http://scmworld.com), the cross-industry learning community for supply chain practitioners, is named in the Sunday Times Export Fast Track 2016 for the second year running. With 35% growth in international sales it's one of only 27 companies to make the list for the second consecutive year.

The announcement follows SCM World's recent placement in the CityAM 2016 Leap 100 - an elected group of the UK's most exciting, high-growth businesses.

Inclusion in both the Sunday Times Fast Track and Leap 100 this year recognises the fantastic financial growth and success of SCM World due to its unique role in advancing the supply chain profession.

"We're extremely proud to be included in the Sunday Times Export Fast Track for the second year in a row," states Oliver Sloane, CEO of SCM World.

"Our success reflects that businesses increasingly recognise how fundamental supply chain is to delivering competitive advantage. But, more than that, it's central to helping solve some of the world's biggest challenges such as universal access to healthcare, global distribution of food and environmental sustainability.

"SCM World's unique global community learning model and ability to connect peers across the world is recognised by an increasing number of companies as the best way to develop the supply chain leaders of the future."

The league table measures average annual international sales growth over the past two years. The 100 businesses listed have, in total, increased sales from £787m to £1.3bn in two years with most of that down to the £438m rise in international sales. In total they employ more than 9,000 people, welcoming an extra 3,600 recruits in the past two years.

Over 19 years, 4,000 companies have featured in Fast Track league tables ranging from Alliance Boots and Dyson to Jamie's Italian, Pets at Home and innocent Drinks.

About SCM World

SCM World is the cross-industry learning community powered by the world's most influential supply chain practitioners from including companies such as Unilever, Nike, Caterpillar, Cisco, Chevron, Dell, Nestlé and General Mills. Founded in 2009 and listed in the 2015 Sunday Times Fast Track, SCM World strives to shape the future of supply chain and advance the supply chain management profession.

Membership of the SCM World community provides access to predictive, groundbreaking research as guided by an advisory board of top supply chain leaders and business schools. SCM World also delivers world-leading events, cross-industry expertise, practitioner-driven content and exclusive peer-to-peer connections.

SCM World is committed to providing insights into important industry trends and firmly believes that supply chain can have a lasting, positive impact on the world's critical issues, including universal access to healthcare, the global distribution of food and environmental sustainability.
